

Green Screen Puppet Show Directions

Task: Create a 3-5 minute puppet show with a green screen background

Who: You alone or a group of up to 4 people

Your puppet show must include the following items:

- Title at the beginning
- Background music during the title
- Green screen background used throughout the entire show
- Dialogue throughout which is easy to hear
- Credits at the end
- Background music during end credits

The story of your puppet show can be original or a retelling of a known story (fairy tale, book, etc.)

The editing of your movie should be clean, with no outtakes or mistakes.

The background of your movie should be pictures related to the scene (on the green screen). The green screen should never be visible during the movie.

How to get started

1. Fill out the planning document (sharing your story, group members, etc.)
2. Film your puppet show using a green screen background (see Mrs. Campau for the screen)
3. Edit your movie, adding background pictures, removing bloopers, etc.
4. Export your movie as a final movie and save it on the middle lab drive, in the appropriate folder.
