

# Interview Project

**Task: Interview a person to learn more about them.**

## **Requirements:**

- 2 minutes long (minimum – can be longer if it's interesting enough)
- Use the question guide appropriate for your interviewee's age
- Titles at the beginning
- Credits at the end
- Your interview should be relaxed, more like a conversation than an interrogation.

**Note:** I would highly recommend interviewing an adult, possibly an older family member. Learn more about them, their childhood, how things have changed since they were your age, etc. This is usually much more interesting than asking another student their favorite color, book, movie, etc.
